

# New York State Practice Transformation Network

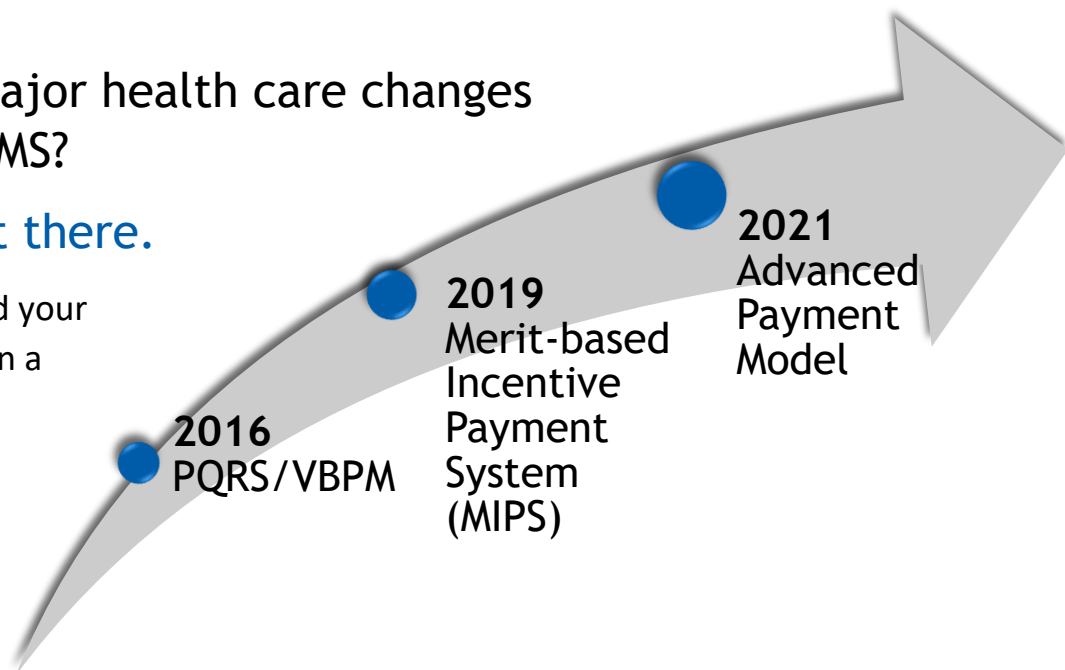

## strategic interests

strategic vision + thinking + relationships

Are you *ready* for major health care changes coming soon from CMS?

We can help you get there.

NYSPTN can support you and your team in preparing to thrive in a value-based payment environment. Our tools and resources can help you stay ahead of health care transformation.

## How Can NYSPTN Help?

**Assistance is offered at no-cost and includes the following:**

- Education and alignment with new federal policies and incentives (MACRA, MIPS)
- Customized practice assistance, tools and coaching provided through a combination of remote and on-site training and support
- 2017 MIPS and APM strategy and choices (which measures, how much to submit)
- Evaluate/facilitate use of Health Exchange (HealthLink) for patient documentation/care
- Introduction/development of quality management principles and tools
- Training in patient-centered population health and care coordination
- Strategies and training to identify and close operational gaps to position you for quality payments
- Access to subject matter experts (Lean Six Sigma, MACRA/MIPS)/other consultative services
