

Promoting Interoperability

PROGRAMS

MEDICAID PROMOTING INTEROPERABILITY PROGRAM ELIGIBLE PROFESSIONALS OBJECTIVES AND MEASURES FOR 2020

TABLE OF CONTENTS

Eligible Professionals Objectives	
<u>Protect Patient Health Information</u>	Protect electronic protected health information (ePHI) created or maintained by the certified electronic health record technology (CEHRT) through the implementation of appropriate technical, administrative, and physical safeguards.
<u>Electronic Prescribing</u>	Generate and transmit permissible prescriptions electronically.
<u>Clinical Decision Support</u>	Implement clinical decision support (CDS) interventions focused on improving performance on high-priority health conditions.
<u>Computerized Provider Order Entry</u>	Use computerized provider order entry (CPOE) for medication, laboratory, and diagnostic imaging orders directly entered by any licensed healthcare professional, credentialed medical assistant, or a medical staff member credentialed to and performing the equivalent duties of a credentialed medical assistant, who can enter orders into the medical record per state, local, and professional guidelines.
<u>Patient Electronic Access to Health Information</u>	The eligible professional (EP) provides patients (or patient-authorized representative) with timely electronic access to their health information and patient-specific education.
<u>Coordination of Care through Patient Engagement</u>	Use CEHRT to engage with patients or their authorized representatives about the patient's care.
<u>Health Information Exchange</u>	The EP provides a summary of care record when transitioning or referring their patient to another setting of care, receives or retrieves a summary of care record upon the receipt of a transition or referral or upon the first patient encounter with a new patient, and incorporates summary of care information from other providers into their EHR using the functions of CEHRT.
<u>Public Health and Clinical Data Registry Reporting</u>	The EP is in active engagement with a public health agency (PHA) or clinical data registry (CDR) to submit electronic public health data in a meaningful way using CEHRT, except where prohibited, and in accordance with applicable law and practice.
